

PENTANA SOLUTIONS MANAGED SECURITY SERVICE PACKAGE

A Managed Security Solution for Automotive Dealers that Delivers a Rapid Return on Investment.

The solution has been designed for Automotive Dealers and is used by hundreds of Dealers across Australia. It offers a unique suite of productivity, risk management and security features that are packaged up into an easy to use solution that can be managed by Pentana and CyberHound experts. The solution includes everything a dealership needs for their risk management, staff productivity, Wi-Fi authentication, database protection, Internet acceleration, spam and virus protection and reduced IT administration costs.

This managed security service is based on a 3 year term and is available as either a software or hardware appliance, giving you the flexibility to decide on how you wish to implement the solution.
