

# PROTECT STUDENTS EMPOWER TEACHERS REDUCE RISKS

**CyberHound  
and the  
Lutheran Schools  
Association  
present an  
exclusive offer.**

## Student Welfare & Digital Citizenship

Access to our cybersafety and student wellbeing tools to protect students from things like online bullying and inappropriate search activity whilst helping them develop positive online behaviour.

## Web Filtering

Granular internet control to ensure inappropriate content is blocked but educational content is freely accessible.

## Cyber Security

CyberHound's Next Generation Firewall provides premium security and protection for the school network.

## Fully Managed Service

CyberHound manages the platform, removing administrative and technical burdens for the schools, while also providing our highest level of support.

*“We’ve been able to negotiate an affordable package with CyberHound that will support our primary and smaller schools across a range of areas - from protecting student welfare and helping to optimise and modernise our online environments.”*

**Rod Wearn,  
Education Leader -  
Learning Technologies  
Lutheran Schools Association**

## Internet Optimisation

CyberHound will cache large files being downloaded from the internet to conserve internet capacity and dramatically improve performance. This supports updates for Windows, Mac OS X, iOS and Adobe.
